

...NOT JUST A JOB. BUT A LIFESTYLE

MARINE TRADES BASIC CERTIFICATE**FREE!**

This 45-hour over-view course introduces participants to careers available in the recreational marine trades with an emphasis on the role of the marine technician. Through lecture, demonstration, hands-on experiences, and field trips, information is gained about opportunities in the following recreational marine trade areas: electronics, mechanics, and boatyard skills such as rigging, hull preparation, shrink wrapping, boat transportation, plus marina operations, business office and customer service.

In this course, participants will gain information and some practical skills for a career in the recreational marine trades. Upon successful completion, participants receive a jointly-issued Massasoit Community College/MA. Marine Trades Association, industry-recognized certificate. This credential provides an excellent basis for finding a job in the marine trades, as well as, a great start on the road to Marine Industry Certification!

The 45 hour over-view course will be offered free for qualified residents in southeastern Massachusetts through June, 2010!

Participants, age 16 and older, must reside in Bristol County, Plymouth County or one of the following cities or towns:

- Braintree
- Canton
- Cohasset
- Holbrook
- Milton
- Quincy
- Randolph
- Stoughton
- Weymouth

Registration is dependent on approval by the Jobs In Boating (JIB) grant coordinator.

Call **TODAY** for more information about Jobs In Boating (JIB) or to enroll in the Marine Trades Basic Certificate course!
