

Marine Outboard Motors

MTK30—4 Credits

This course covers the various parts of and processes involved in installation, repair, and maintenance of outboard engines. Instructions include the fuel, electrical, lubrication, and cooling systems of two- and four-stroke outboards, and both carbureted and injected engines. The course also covers lower units and propulsion, power tilt/trim, tune-up, troubleshooting, and preventative maintenance.

Tues/Thur: 5:00—8:00pm

**Location: Upper Cape Cod Regional Technical HS
BCC CRN # 18206**
