

MASSACHUSETTS MARINE TRADES ASSOCIATION

ABOUT US

The purpose for the formulation of the Massachusetts Marine Trades Association is to establish an organization of dedicated men and women who are employed in the marine industry with the concept that this organization will **provide the framework for furthering the interests of the marine trades and the boating public** through the promotion of boating, participation in legislation, and professional improvement programs.

It is further hoped that the association will be the focal point for exchange of ideas concerning marine matters, and that a high standard of professional and ethical conduct will be adhered to by the membership.
